

# HTM WATER HYDRANTS

## E-series Pressure Ratings

2012 June13

**PRODUCT: HTM E-Series Water Hydrants**

Following is a list of E-Series water hydrants manufactured by HTM Hydro-Tech Manufacturing Inc., (“HTM”) together with the recommended maximum working pressure and static test pressure of each model of hydrant.

Hydrant Model No. (“xxx” denotes riser length of hydrant in cm)		Inlet Pressure Ratings (Valve Closed)		Discharge Pressure Ratings (Valve Open)	
		Maximum Working Pressure (PSI) *	Minimum Static Test Pressure (PSI)	Maximum Working Pressure (PSI) *	Minimum Static Test Pressure (PSI)
NPT Thread	E20M-xxxT	1500	4500	1200	1500
	E20M-xxxY	1500	4500	1200	1500
	E20V-xxxT	1500	4500	1200	1500
	E20V-xxxY	1500	4500	1200	1500
BSPT Thread (DIN 2999, JISPT)	E20MB-xxxT	1500	4500	1200	1500
	E20MB-xxxY	1500	4500	1200	1500
	E20VB-xxxT	1500	4500	1200	1500
	E20VB-xxxY	1500	4500	1200	1500

\* Maximum Allowable Working Pressure at 38°C.
